The Early College Program @ New England Tech

High school seniors have the opportunity to jumpstart their college career while completing their high school graduation requirements through New England Tech's innovative Early College Program. Students may enroll in full-time studies at NEIT, which will save them time and tuition in their pursuit of a college degree, and still participate in high school sports, clubs, prom, and graduation.

There are 49 Early College students from 21 Rhode Island high schools and one school

Annual AOTA Conference and Symposium
